## GOV. BECKHAM IS ALL CONFIDENCE

Says His Election Will Be A Landslide.

In Central Kentucky Politics Is at Fever Heat With McCreary Men Shouting Loud.

### THE FIRST DISTRICT IS QUIET

Governor J. C. W. Beckham last night returned to Paducah after having made a thorough canvass of the western end of the state, and was gratified at the reception given him everywhere. Governor Beckham has visited Murray, Benton, Mayfield, Fulton, Bardwell, Clinton, La Center, Kevil and other small towns. At each his reception was warm. Yesterday he made a two hour speech at La Center and on an invitation spoke again at Kevil. The crowds were immense at both places many following from La Center to hear the Kevil speech. He went to Hartford from here.

Colonel Edward O. Leigh, secretary to the governor, stated this morning that he felt sure Beckham would be given a large vote for senator. "The governor has been given the warmest of welcomes everywhere he had gone in this end of the state," Colonel Leigh declared. "He was very much gratified and left confident that he is safe in this end of the state."

Governor Beckham has necessarily been subjected to some rather rough travel in order to make his points, but his trips have always been accompanied by pleasant incidents. Yesterday afternoon he caught the local from Cairo and rode in the caboose. A lady presented him with a large bouquet and he promptly gave each passenger one flower.

A Landslide. Confidence was written on the countenance of Governor Beckham, who did not show the least signs of the wear and tear of his constant travel. He has been riding at night, catching trains at unearthly hours in the morning and stepping off at deserted country stations before sunrise.

"It will be a landslide," was the governor's reply to the question, "What are your prospects?"

Colonel Ed Leigh places his estimate of the governor's majority over Senator McCreary at 40,000.

That Governor Beckham will carry the First district is conceded by the opposition. In Louisville, where the open declaration of "Mahse Henry" Watterson yesterday morning aligns all four of the papers against the governor, there is much noise for Senator McCreary, whose adherents are endeavoring to stampede the governor's friends over to McCreary's side by a show of numbers. They are claiming Jefferson county by 7,000 with all but one or two congressional districts outside.

About the Louisville "lid" of which so much capital has been made, Governor Beckham said: "I think people are beginning to realize that there is nothing in the charge of insincerity against me. If I had put the lid on in Louisville for political purposes, I think I should be credited with sense enough to keep it on until after the election."

Colonel Noel Gaines who was dismissed from service by Governor Beckham and who is now attacking him in the "Crusader," came in for the governor's contempt.

"He is suing the Kentucky State Journal for libel," said the governor. "They could let him choose his own jury and beat him in Frankfort."

Interest in the Democratic primary in this section seems apathetic. The certainty of Beckham's majority in the First district apparently has inspired his followers with sufficient confidence to warrant their taking their ease in the contest. A slump in the First district is one of the things the McCreary faction is building on.

In the central part of the state, on the other hand, Democratic politics is at fever heat and both sides are wild.

### Fifth District.

Interest in the Fifth congressional district, Jefferson county, is divided between the Beckham-McCreary race and the congressional situation. It is freely predicted by the inside Democratic ring that Major W. C. Owen, the Republican candidate, will defeat Swager Sherley, who is up for re-election; while the Republicans are not claiming anything, but are working with a will born of hope.

Sherley's principal drawback is his complete domination by ring influences. Governor Beckham will spend next week in Central Kentucky.

Do the hard things first.

Rob Bank in Little Town and Return Fire of posse, which Pursues Them.

Odin, Ill., Oct. 26.—After completely wrecking the safe of the Bank of Odin, the safe blowers engaged in a running battle with citizens and made good their escape. It is believed they carried off nearly all the bank's funds. Following a report of the dynamite charge a crowd gathered and opened fire on the robbers who fled. The robbers returned the fire, many shots being exchanged. No one is known to have been injured. The burglars secured \$6,000 from the vault. The fixtures are a total wreck. It is supposed to be the same gang which robbed the bank of Vergennes Monday night and killed a man.

### NEW CORN 35 CENTS.

Record Breaking Crop Is Coming Into Paducah.

In the Sun's market report for today, the market price for new corn is shown as 35 cents. The old corn brings 50 cents a bushel. The market is steady with a slightly downward trend. The crop this year will be a record breaker, but it is probable that our consuming power has increased largely and that with the foreign demand may be expected to prevent any great slump in prices.

## FROM PANTRY BOY MR. GRAMMER ROSE

To Be President of The Illinois Central Railroad.

Well Known in Paducah, When He Was Captain on Ohio River Steamer.

### HEAD OF LAKE SHORE SYSTEM.

G. J. Grammer, who will be the new president of the Illinois Central railroad, is intimately known to every old river man in Paducah and to many of its older citizens. "Jack" Grammer as they know him, started as pantry boy on the old steamer Charles Bowen, then running between Evansville and Cairo.

The qualities which today are placing him at the head of the great Illinois Central system at a salary of \$100,000 a year and with a contract for ten years, were evident then, and he soon rose from the humble position of pantry boy to the captainship of the Bowen. Then he acquired an interest in the line and went on the steamer Idlewild as captain. From captain he rose to superintendent of the line and later on drifted into railroadings.

Capt. Grammer came here from Ohio. Col. Charles Reed, of the Palmer House Capt. H. C. Gilbert and numerous other local citizens knew him in the late fifties. He was a most popular man.

At present he is the president of the Lake Shore railroad of the New York Central lines. President Fish. It is understood, stipulated in his agreement to withdraw from the presidency of the Illinois Central, that G. J. Grammer should be made president in his place.

Residents Around Eleventh and Jackson Arming.

Two Homes Molested by Night Intruders Who Are Frightened Away.

### NOISES HEARD AT WINDOWS.

Hurley, of 718 South Eleventh street, frightened one away from his premises.

About 11 o'clock last night members of the Hurley family heard noises. They remained quiet and when repeated felt assured that a burglar was attempting to enter. At this juncture Mr. Hurley, a railroad fireman, arrived home and his appearance frightened the thief away.

## GAME WARDEN

Will Get After the Unscrupulous Sportsmen.

All Cases of Violation of Laws Will Be Reported to County Judge Lightfoot.

Some sportsmen who themselves respect the game laws have watched with increasing indignation, the unscrupulous shooting of the young quail and other game before the same law expires November 15. Admittedly, game is being killed all over McCracken county and if it keeps up there will be little hunting left for those sportsmen who have obeyed the law.

These law-abiding sportsmen have gotten together and a game warden has been appointed, whose identity will be kept secret, and every case of killing game before the season opens will be carried before County Judge Lightfoot. It is probable this private warden will work until the county judge can be induced to appoint a warden.

### HEARST AND HERALD REPORT.

New York, Oct. 26.—William Randolph Hearst and all candidates for his ticket will be barred from appearing on the official ballot in the coming election if the contention raised before the supreme court by Daniel Cohalan, representing the Tammany hall candidates is upheld. Cohalan questions the validity of every Independence League nomination on the ground that the league is a corporation, and as such forbidden to make nominations.

Two Views of Situation. How the fight between the Hearst newspapers and the New York Herald is being waged concerning the gubernatorial candidacy of W. R. Hearst, is shown by the two views of Mr. Hearst's New York reception at the Madison Square garden last night. The Hearst papers say it was the greatest political demonstration of union labor in the history of the country, while the Herald terms it a "frost." The latter paper declares further that twelve labor unions yesterday decided to vote for Hughes.

The Hearst papers take up the poll of the New York World which is opposing their candidate, that Hearst would go into the country districts with the biggest majority ever given by Greater New York, and contend a victory for their candidate on the prediction. The Herald says Independence Democrats in Kings county are opposing the editor candidate. Hearst admits betting is 3 to 1 against him.

The hog attacked him about the feet while he was down but the boy managed to kick it off. The boy then made for his head. It's movements were quick Pryor had been unable to rise. SUBMITTED TO THE RAILROADS

Louisville, Oct. 26.—The Interstate commerce commission convened at 10:30 o'clock this morning in the federal court room here to continue the inquiry begun at Knoxville. Col. Stone said that the Louisville and Nashville railroad was the principal stockholder in the Louisville Property company.

T. Cairns, of Grand View, Mich., agent of the Louisville Property company, was the first witness called. He was questioned by Mr. C. C. McChord, railroad commissioner for Kentucky.

He said that the Louisville & Nashville railroad owned in Kentucky and Tennessee 40,632 acres of coal lands. He said that the company operated one mine in this territory and leased seven.

He said that the Birdseye mine was operated indirectly by the Louisville & Nashville, the terms being to place the coal on cars of the railroad company for a certain sum.

Mr. Cairns was questioned at length concerning the shortage of cars used to carry the products of mines to the markets. He said that there had been frequent shortages, but that he could not give a positive answer as to their extent.

Max Barker, formerly an attorney of this city but now a coal mine operator, told of the operations of his mines in Bell county on the lines of the Louisville & Nashville Railroad company.

He said that he believed that if the railroads could furnish all the cars needed the price of coal would take a decided drop.

# The Lonely Life

*The Tragic Confession of a Spinster, Who Realizes That No Fame or Wealth Can Compensate for the Solitude of Her Life.*

In this article the author, whose name for obvious reasons we are not at liberty to disclose, drops for once the mask which she in common with other "Bachelor Maids," is accustomed to turn to the world.

Though no longer young, she frankly says she longs for the companionship of a husband and the care of children. The circumstances which have kept from her the happiness which these blessings bring are stated with the same directness which characterizes the whole article. It is the life-story of a "successful" woman, a drama of real life in which the last act is a tragedy.

Little Corn Island, off Nicaragua, Capt. Porter of the steamer, reports, showed no signs of life when the Limon passed, but, contrary to published reports, Costa Rica appeared to have escaped damage of any consequence.

Great Corn Island, although showing signs of devastation, did not appear to have suffered as much as Little Corn Island.

While going through the Straits of Florida by Carys, Fort Reef and Forey Rock, Capt. Porter noted that wreckage, apparently the fragments of buildings, strewn the ledges.

### FINDS A DIME LOST 65 YEARS.

Millionaire Returns to Boyhood Home and Recovers the Coin.

Attica, Ind., Oct. 26.—After an absence of sixty-five years Frank Book-walter, a millionaire of Springfield, Ohio, has returned to his old home in this county. One of his first acts was to recover a dime he lost when he was five years old, just before he went away.

The dime was given to him by his grandfather, and he was playing with it on the doorstep. He dropped it and it fell into a crack of the stone steps. It was thought it could not be recovered without damaging the steps, and no efforts to get it were made.

### "DEFERRED DIVIDENDS"

Accumulation Periods or Tontine insurance, as it has been variously called. To those who have given thought to the subject, no other term has such a sinister meaning. They recognize it as the one condition which made possible the disgraceful riot of Gambling, Extravagance and Robbery of Policy-holders indulged in by multi-millionaire officers and directors.

These officers approved of the "Deferred Dividend" system. It furnished them an enormous fund from which to draw money for their private speculations and scandalously large salaries. And you may be sure, too, that they used it without mercy, regardless of the sacred character of their trust.

You can't put in a hundred dollars and take out a thousand in a year, or two, or even five years. ### BUSHEL OF CHAFF.

One silly little grain of wheat in a  
bushel of chaff was all the readers  
of that three and a half column dia-  
tribe on the city water contract got  
for their pains this morning; and  
just how prolific in intellectual fruit  
that silly little grain is, can be es-  
timated in a moment's consideration.  
Here is the grain:

"Of course it does not prohibit  
the city from erecting its own plant,  
but who would want the city to own  
a plant when another company held  
the contract for the fire hydrants?  
The voting of the proposed contract  
simply means that the city must buy  
the plant now here or never own one."

There is a clause in this eighteen-  
year contract which specifies that at  
any time the city desires to purchase  
the water plant at an appraised val-  
uation, the existing contract will be  
abrogated, and the city may furnish  
its own water. Now, the argument  
against this is, that the city in ac-  
quiring a municipal plant is limited  
to the purchase of the present system  
by the contract, and it cannot erect  
an entirely new plant. In other  
words the fallacious reasoner would  
raise this bugaboo on the assumption  
that two-thirds of the voters of Pa-  
ducah at some future time will decide  
to tear up the streets of the city,  
which have been laid at an estimated  
cost of \$350,000, and put down an  
entirely new system of pipes. Such  
an argument is perfectly preposter-  
ous. No reasonable advocate of  
municipal ownership would consider  
any plan other than purchasing the  
present plant at a fair valuation, and  
certainly, no municipal ownership  
scheme that contemplates the tearing  
up of all the streets in the city to  
lay pipes, where pipes already lie, will  
meet with the acceptance of two-  
thirds of the voters. There is noth-  
ing in this contract to which honest  
municipal ownership advocates can  
object.

Whatever is to be the outcome of  
the city water contract proposition,  
it is up to the people. The contract  
expired and the general council had  
no alternative. The water and light  
committee took up the matter with  
the Paducah Water company, with  
but one object in view. That was to

secure the best rate possible for the  
city. One was submitted that would  
save the city \$100,000 in the eight-  
teen years of its life. It was tenta-  
tively agreed to. One thing is certain,  
the city must have water for fire pro-  
tection. The general council made  
the best terms it could and has sub-  
mitted the matter to the people.  
That is fair enough, but in order that  
no voter should vote blindly, the  
terms of the contract are being pub-  
lished in all the daily papers and the  
city is paying for the publication.  
Even the pusillanimous little votary  
of reformed rhetoric has been pub-  
lishing for nearly two weeks this  
contract without comment, and now,  
just ten days before the election, the  
"Roarback season," out comes an  
attack on Mayor Yeiser, an avowed,  
out and out, advocate of municipal  
ownership, the general council and  
the Sun. Pitifully enough, the  
charge against the general council  
is that the water and light commit-  
tee accepted figures computed by the  
water company, and this criticism is  
tempered with the observation: "We  
do not mean to question the figures  
submitted." The writer has had sev-  
eral weeks in which to verify or  
falsify the figures, and he had the in-  
clination to disparage them, so we  
assume the figures are entirely be-  
yond question.

We doubt if the retail merchants  
will seriously feel the effects of the  
order to remove swinging signs that  
extend over the sidewalks. The large  
number of swinging signs seems to  
be due to a desire to keep up with  
competitors, rather than to a general  
recognition of any benefits from this  
form of advertising. One merchant  
extended his name across the side-  
walk, and the others did likewise.  
The result has been that the side-  
walk is roofed with a mass of lettered  
boards, which no one can read until  
he is directly in front of the store it  
advertises, a position in which his  
whole attention should be attracted  
toward the display window instead  
of the littered shingle skyward pros-  
pect. The merchants will not lose a  
cent of publicity, but those who do  
not believe in the swinging sign will  
be freed from the necessity of  
copying it. Great city stores con-  
tent themselves with neat name  
plates and fine window displays and  
seek publicity through the only ef-  
ficient medium, the newspaper.

There is no one who will get more  
enjoyment out of the proposed park  
system, contemplating a one block  
park located in each ward, than the  
man with a small yard, and for this  
reason the man of small means  
should be much interested in the  
bond issue whereby the park com-  
missioners will be given \$100,000 to  
establish parks. Parks are breathing  
places for the women and children,  
and as such will save more than  
their cost in doctor's bills. The cost,  
however, is the smallest part to be  
considered. Under the law the city  
is to provide \$5,000 a year for parks,  
and the park commissioners, in ask-  
ing for the \$100,000, propose to  
take care of its payment out of this  
fund which it is to receive every  
year.

The draft of a proposed uniform  
divorce law, decided upon by the  
resolution committee of the divorce  
congress to be held in Philadelphia  
next month, has been forwarded to  
the various delegates who will make  
up the gathering. The proposed  
measure makes little or no change in  
grounds for divorce, but provisions  
in it would discourage the evil con-  
siderably.

Don't think the issuance of a  
\$100,000 for bonds will in any way  
prevent the city's issuing bonds to  
erect a water system or light plant.  
The city can issue \$335,000 of  
bonds, and more in case of an emer-  
gency, which leaves, after a bond is-  
sue of \$100,000 for parks, \$435,000  
that could be issued at any time.

The state of Wisconsin will remit  
all state taxes this year. The tax  
collections from the railroads in the  
state will be sufficient to take care  
of all expenses this year. This is  
the fruitful result of the work of  
former Governor, now Senator, Lafo-  
lette. Pitty Kentucky could not have  
a La Follette.

"We need a passenger train to  
leave Fulton at 3:30 p. m. for Padu-  
cah and Paducah at 7:30 a. m. for  
Fulton," says the Fulton Leader.  
There no doubt always is a demand  
for trains from Fulton to Paducah.

While they are talking about a  
coal combine to cut down the supply  
in the retail markets, the west Ken-  
tucky operators would be glad if  
somebody would pass around a few  
coal cars.

### About Democratic Claims.

Chicago, Ill., Oct. 26.—Secretary  
Shaw was the chief speaker at the  
Republican rally last night in a sub-  
urb of Oak Park. Shaw devoted the  
greater part of his talk to denials of  
statements attributed to Bryan, par-  
ticularly those in which the claim  
was made that what has been done  
by the Republican party is in line  
with the policies outlined previously  
by Democrats.

The secretary claimed the Demo-  
crats had no share in any of the mea-  
sures passed recently for public good,  
except the rate bill and he accorded  
them only a small share of credit in  
connection with that.

Some people imagine that cunning  
and wisdom are synonymous, but  
cunning is as plentiful as wisdom is  
scarce.

### OLD AGE

Depends Not Upon Years, but Upon  
Vital Force.

At the recent Convention of Phy-  
sicians there was a good deal of dis-  
cussion in regard to old age and the  
usefulness of persons over sixty  
years old. Some at fifty years call  
themselves old, and really appear so,  
while others at seventy years seem  
active, vigorous and young.

It was the opinion that it was not  
years, but the loss of vital force that  
makes a person old. Weakened di-  
gestion, thin blood and poor circula-  
tion soon start functional powers and  
vitality on the wane, and then the  
symptoms of old age quickly appear,  
as the system then has not the power  
to replace waste fast enough.

Our well known druggist, W. B.  
McPherson, says: "That old feeling  
may be warded off and overcome, and  
we wish every person in Paducah  
who feels old, whether they are so  
in years or not, would try our cod  
liver preparation, Vinol. We know  
that it has vital properties which re-  
pair worn tissues, checks the natural  
decline and replaces weakness with  
strength. It is an ideal body builder  
for old folks."

This is because Vinol is a genuine  
cod liver medicine, containing all the  
medicinal curatives and strength-  
making elements of cod liver oil taken  
direct from fresh cod livers, with  
tonic iron added. We will return  
your money if it does not do exactly  
what we claim for it. W. B. McPherson,  
druggist.

NOTE.—While we are sole agents  
for Vinol in Paducah it is now for  
sale at the leading drug stores in  
nearly every town and city in the  
country. Look for the Vinol agency  
in your town.

New York, Oct. 26.—Agents for J.  
Pierpont Morgan paid \$4,000 duty to-  
day on an illuminated Bible and man-  
uscript inclosed in the box with the  
book. The manuscript is the original  
warrant for the arrest of John Bun-  
yan for heresy. Treasury agents  
abroad placed a valuation of \$25,000  
on the Bible, an estimation on which  
duty was collected here. Mr. Mor-  
gan had as a competitor for its pos-  
session King Edward. The book is  
one of the most magnificent examples  
of illuminated text of the monks of  
Cluny, and was done in the thirteenth  
century.

### PLAN WATER CURE FOR INSANE.

Elgin, Ill., Oct. 26.—Hot and cold

hospital is to be built separate from  
the present buildings. It will be small  
with a capacity of not more than  
twenty patients. Apparatus has al-  
ready been ordered. The plans out-

### The Rigors of Cold Weather.

Probably at no time of the year  
does the physical condition of the  
body demand more attention than  
just at this season, the beginning of  
cold weather.

Let the system be run down, or the  
blood impoverished to any extent and  
the cold weather goes hard with you.  
Naturally the thing to do is to  
get the circulation in good order, and  
the whole system toned up to stand  
the rigors of winter.

Some physicians prescribe the daily  
cold bath, others seek recourse in  
blood tonics and other stimulants,  
but, probably the most rational treat-  
ment of all is the Osteopathic, as  
Osteopathy more quickly, and more  
effectively rights the blood flow and  
restores normal conditions than any  
other known treatment.

Osteopathy is only a natural  
treatment, a method of bloodless sur-  
gical manipulations to remove any  
obstructions interfering with the pro-  
per transference of nerve force, or  
natural blood flow, or the other flu-  
ids, to the organ or part involved.

I should like to have you call and  
let me tell of some Paducah people  
whom you know well that Osteopa-  
thy has done much for, and also to  
tell you what it will do in your par-  
ticular case.

My office hours are from 9 to 12  
and 2 to 5, 516 Broadway, Phone  
1401.

## With Edged Tools

By HENRY SETON MERRIMAN  
Author of "The Sowers," "Roder's Corner,"  
"From One Generation to Another," etc.

Copyright, 1904, by Harper & Brothers

"Where do you wish me to go?"  
"To Masala, on the Ogowe river.  
When can you leave?"  
"Now."

"You can hire a dhow," she said,  
"and on the river you may have as  
many rowers as you like. You must  
go very quickly to Masala. There you  
must ask about the Englishman's ex-  
pedition. Some of the men are at  
Masala now. They were going up coun-  
try to join the other Englishmen far  
away—near the mountains. They have  
stopped at Masala. Find out why they  
have not gone on, and come back very  
quickly to tell me."

She gave him money and rode on  
home. Before she reached the bungal-  
ow the paddlemaker passed her at a  
trot, going toward the sea.

She waited for three days, and then  
Victor Durnovo came again. Maurice  
was still away. There was an awful  
sense of impending danger in the very  
air, in the loneliness of her position.  
Yet she was not afraid of Durnovo.  
She had left that fear behind. She  
went to the drawing room to see him  
full of resolution.

"I could not go away," he said after  
relinquishing her hand, "without com-  
ing to see you."

Jocelyn said nothing. The scared look  
which she had last seen in his face was  
no longer there, but the eyes were full  
of life.

"Jocelyn," the man went on, "I sup-  
pose you know that I love you. Will  
you marry me?" he asked.

"No."

"Why?"

"Because I not only do not care for  
you, but I despise and distrust you."  
"Then," he said, "I will be candid  
with you. I intend you to marry me.  
I have intended it for a long time. I  
am not going down on my knees to ask  
you to do it. That is not my way. But  
if you drive me to it I will make your  
brother Maurice go down on his knees  
and beg you to marry me."

"I don't think that you will do that,"  
answered the girl steadily. "Whatever  
your power over Maurice may be, it is  
not strong enough for that. You over-  
rate it."

"Suppose," he said in a low, hissing  
voice, "that I possess knowledge that I  
have only to mention to one or two  
people to make this place too hot for  
Maurice Gordon. If he escaped the  
fury of the natives it would be diffi-  
cult to know where he could go. Eng-  
land would be too hot for him. They  
wouldn't have him there. I could  
see to that. He would be a ruined  
man, an outcast, execrated by all the  
civilized world."

"What is your knowledge?" asked  
Jocelyn in a coldly measured voice.

"If you will have it, your brother,  
Maurice Gordon, is a slave trader."

She drew back as she might have  
done from some unclean animal. She  
knew that he was not telling the truth.  
There might be extenuating circum-  
stances. The real truth might have  
quite a different sound, spoken in dif-  
ferent words, but there was enough  
of the truth in it as Victor Durnovo  
placed it before her to condemn  
Maurice before the world.

"Now will you marry me?" he  
sneered.

"Supposing," said Jocelyn, "for one  
moment that there was a grain of truth  
in your fabrication, who would believe  
you? Who on this coast would take  
your word against the word of an  
English gentleman? Even if the whole  
story were true, which it is not, could  
you prove it? You are a liar as well  
as a coward and traitor! Do you think  
that the very servants in the stable  
would believe you? Do you think that  
the incident of the smallpox at Masala  
is forgotten? Do you think that all  
Loango, even to the boatmen on the  
beach, ignores the fact that you are  
here in Loango now because you are  
afraid to go through a savage country  
to the simlacine plateau, as you are  
pledged to do? You are afraid of the  
smallpox once. There is something else  
that you are afraid of now. I do not  
know what it is, but I will find out.  
Coward! Go! Leave the house at once,  
before I call in the stable boys to turn  
you out, and never dare to speak to me  
again!"

He heard her close the window after  
him as he walked away beneath the  
trees.

Jocelyn went out by the open win-  
dow, and presently Nala came grinning  
toward her. He was evidently very  
much pleased with himself—held him-  
self erect and squinted more, violently  
than usual.

"I have been to Masala," he said, with  
considerable dignity of manner.

Nala squatted on the chunam floor  
and proceeded to unfold a leaf. The  
operation took some time. Within the  
outer covering there was a second en-  
velope of paper, likewise secured by a  
string. Finally the man produced a  
small note, which showed signs of  
having been read more than once. This  
he handed to Jocelyn with an ab-  
surd air of importance.

She opened the paper and read:

### Immigration Increasing.

Washington D. C., Oct. 25.—"The  
total immigration to the United  
States may reach 1,400,000 people  
this year," said Secretary Metcalf,  
of the department of commerce and  
labor. The secretary has just return-  
ed from New York, where he investi-  
gated the conditions at Ellis Island,  
the immigrant station.

It's hard to work, but harder to  
want.

## SURVIVOR TELLS STORY OF RESCUE

### Five Adrift On Small Raft Off Florida Coast.

### ONE DRIVEN MAD JUMPS OFF.

Norfolk, Va., Oct. 26.—Counting  
the minutes, which seemed to them  
to be but few, intervening between  
them and death, bruised, bleeding,  
hungering and aching, five men adrift  
on a small raft off the coast of Flor-  
ida saw one of their companions  
whose suffering had driven him mad  
throw himself into the sea to death  
and not long afterward the ship  
which was coming saved their lives.

The five survivors of one of the  
greatest tragedies which has ever  
occurred on this coast were landed  
here today by the British steamer  
Heatherpool.

Those survivors with about 145  
others were constructing a viaduct  
for the Florida East Coast railway  
through the Florida Key and were  
aboard House Boat No. 4, anchored  
off the coast on October 17th.

The hurricane which swept the  
coast, struck the house boat about 1  
o'clock on the morning of October  
18th, and broke it adrift. The house  
boat soon afterward foundered and  
all the 150 men aboard were thrown  
into the sea. The house boat was  
dashed to pieces by the waves. Many  
of the men were killed by the heavy  
timbers which struck them as they  
were struggling to escape.

Six men lashed together two tim-  
bers and lived on this raft until one  
became crazed from suffering and in-  
jury and threw himself into the sea.

On the morning of October 18th  
Capt. Grieves heard cries for help  
and discovered the raft. He sent a  
life boat and took the perishing men  
aboard and brought them here.

### POSSE VICTORIOUS.

### Defeat Bandit Band in Pitched Battle in Ohio.

Cadiz O., Oct. 26.—After a desper-  
ate encounter between a posse of  
armed citizens and officials on one  
side and six alleged bank robbers on  
the other, the latter were rounded  
up today at Jewett and brought to  
this place, where they are now in  
jail. The men are charged with dy-  
namiting the safe of the First Na-  
tional bank at Bowerstown, last  
night. The report of the explosion  
aroused the people of the town and  
the robbers, who escaped on a hand-  
car and were pursued by the posse  
which captured them. The safe of  
the bank was wrecked, but the rob-  
bers got no money.

### OFFER

### Of Compromise by the Railroads Re- jected by Switchmen.

Chicago, Oct. 26.—The compro-  
mise offer of two cents an hour in-  
crease in wages, offered by the rail-  
roads was rejected today by commit-  
tees representing the Switchmen's  
union. The men are holding out for  
original demands calling for a mini-  
mum scale of 42 cents per hour for  
firemen, 38 cents for helpers and an  
eight-hour day. Both sides expressed  
the belief today that there would  
be no strike.

### Fever in Cuba.

Washington, Oct. 26.—Army medi-  
cal officers who had much experience  
in Cuba are watching with some an-  
xiety the progress of yellow fever in  
the island. The principal cause for  
apprehension is found in the fact  
that the appearance of the disease at  
several widely separated points is an  
evidence that it has gotten away from  
the medical department in Havana.

GREW THIS HAIR

And we can  
PROVE IT

MRS. ANNIE E. SHERMAN,  
Weir City, Kansas.

You must remember that falling hair  
and thinning are signs of a diseased  
condition of the scalp, and you must not delay  
treatment. To do so simply means more loss of  
hair, and a greater impoverishment of scalp,  
and finally baldness. The time to take Danderine  
is in the start. Danderine works wonders  
in all such cases. It will quickly regenerate the  
enfeebled follicles, and make your hair grow  
more beautiful than it ever was. NOW is the  
time to take Danderine.

Unless the present threatening  
weather materializes into rain, it is  
probable that the rivers will go lower  
than they have been this year. The  
river fell 5 here in the last 24 hours,  
the gauge registering a stage of 8.8.

The suit against the Dick Fowler  
will have far-reaching results on the  
river, whichever way it is decided.  
Rivermen here are confident that the  
control of the islands and rivers to  
the low water mark on the Illinois  
shore by Kentucky will give the boat  
the suit. Capt. Mark Cole carried  
the Dick Fowler to Cairo this morn-  
ing. Dick Willis is acting clerk. Capt.  
Bewley went to Cairo by trial this  
morning to appear at the trial and  
Lee Rhodes remained over there  
yesterday. It is understood that one  
of the suits was thrown out yester-  
day as not having sufficient grounds  
against the boat.

Owing to the roughness of the  
peanuts, Joe Singer, the German  
assistant around the wharfbow, was  
stationed around them this morning  
with an axe by night Wharfmaster  
John Street, with orders to chop off  
every hand he caught in the bags,  
and leave the hand in the sack. This  
dire threat protected the peanuts.

The Lydia left yesterday for Flor-  
ence, Ala., after ties, on the last trip  
the Lydia will make for some time,  
as that boat will be repaired.

The Gate City will be left off the  
dock today, after having had an  
entire new hull built. The boat was  
made larger and better in this pro-  
cess, and after being inspected, will  
enter the Paducah-Dyersburg trade.  
The Lydia will be lifted out on the  
docks probably on Monday, and the  
Illinois Central tug Lizzie Archbold  
will come out soon afterward.

The Scotia affords a lesson in  
arithmetic. There are four Pecks on  
the Scotia, and four Pecks equal one  
bushel. Capt. Peck, the owner of  
the boat, his brother an uncle and a  
cousin are on the boat now.

The Georgia Lee will arrive from  
Cincinnati Saturday on the down trip  
to Memphis. Tuesday the Georgia  
Lee will start out on the return trip  
from Memphis to Cincinnati.

The Saltillo left St. Louis last night  
for the Tennessee river and will ar-  
rive here Saturday morning.

The Jim Duffy will arrive from  
the Tennessee river today with a  
load of ties.

The Inverness will leave today for  
the Cumberland river after a tow.

The Henry Harley was today's Ev-  
ansville packet. The Dunbar did not  
arrive till 1 o'clock last night.

The Kentucky is in from the Ten-  
nessee river with a big trip.  
A new publication of the Ohio  
river and its history has made its ap-  
pearance in Cincinnati. It is by  
Archer Butler Hulbert and entitled  
"The Ohio River." It is of many in-  
teresting pages of early history of the  
Ohio, and also contains maps and  
diagrams from years back until the  
present day. Coal tows will arrive  
at Cincinnati today and may reach  
here tomorrow. The upper Ohio  
sacks of the Green line carried  
1,000 passengers during the past  
summer. Capt. Sam want one  
of the best boatmen on the river, is  
a command of the Georgia Lee.—  
Courier-Journal.

### Official Forecasts

The Ohio at Evansville will rise  
during the next two days. At Mt.  
Vernon will continue falling during  
the next 12 hours, then rise. At  
Paducah and Cairo will continue to  
fall slowly during the next several  
days.

The Tennessee from Florence to  
the mouth, and the Mississippi from  
Chester to below Cairo will con-  
tinue to fall during the next several  
days.

### LIGHT DIET.

Brotherhood Charged With Starving  
Little Children.  
Potosi Springs, Col., Oct. 26.—G.  
C. Rago and Mrs. Minnie Wheeler,  
leaders of the Brotherhood of Light,  
who conduct a home for the poor  
children on a farm near Arboles,  
Col., were arraigned here today on a  
charge of manslaughter in connection  
with the death of six babies on the  
place. They waived examination and  
were remanded to jail until they  
can furnish bail.

The charge was made by an agent  
of the humane society, who alleges  
that the children were fed almost ex-  
clusively on vegetable diet and were  
practically starved to death.

### Guilt of Manslaughter.

Lexington, Ky., Oct. 26.—The jury  
trying Fred Pharris, former attendant  
at the Eastern Kentucky lunatic  
asylum, charged with the murder of  
Fred Ketterer, a patient at the institu-  
tion, brought in a verdict of guilty  
shortly before midnight fixing the  
punishment at five years in prison.  
The jury was instructed to bring in  
a verdict of not guilty or of man-  
slaughter, and decided on the latter  
after two hours' deliberation.

## A Wonderful Record.

As made up by improved and exact  
processes Dr. Pierce's Favorite Prescrip-  
tion is a most efficient remedy for regu-  
lating all the womanly functions, correct-  
ing displacements, as prolapsus, ante-  
version and retroversion, overcoming painful  
periods, toning up the nerves and bring-  
ing about a perfect state of health. It  
cures the backache, periodical headaches,  
the dragging-down distress in the pelvic  
region, the pain and tenderness over  
lower abdominal region, dries up the  
pelvic catarrhal drain, so disagreeable  
and weakening, and overcomes every  
form of weakness incident to the organs  
distinctly feminine.

"Favorite Prescription" is the only  
medicine for women, the makers of  
which are not afraid to print their  
formula on the bottle wrapper, thus  
taking their patrons into their full con-  
fidence. It is the only medicine for  
women, every ingredient of which has  
the strongest possible endorsement of  
the most eminent medical practitioners  
and writers of our day, recommending  
it for the diseases for which "Favorite  
Prescription" is used. It is the only  
put-up medicine for women sold  
through druggists, which does not con-  
tain a large percentage of alcohol, so  
harmful in the long run, especially to  
delicate women. It has more genuine  
cures to its credit than all other medi-  
cines for women combined, having  
saved thousands of sufferers from the  
operating table and the surgeon's knife.  
It has restored delicate, weak women to  
strong and vigorous health and virility,  
making mothers and householders where  
there was barrenness before, thereby bright-  
ening and making happy many thousands  
of homes by the advent of little ones to  
strengthen the marital bond and add  
sunshine where gloom and despondency  
had reigned before.

### DECLARES MCCOOL WAS GROOM

### Attorney for Mrs. Frank Walker Identifies Butler Millionaire.

Pittsburg, Oct. 26.—John Marron,  
attorney for Mrs. Frank Walker, to-  
day declared positively that Peter F.  
McCool, the Butler millionaire, is  
the man who married Mrs. Walker  
in New York, notwithstanding the  
alibi which McCool's attorney says  
will be presented. Mr. Marron also  
says the signature on the marriage  
certificate is McCool's. Mrs. Walker  
has begun suit against McCool, charg-  
ing infidelity and naming Martha  
Negley, Martha Negley and Mrs.  
Walker formerly were friends and  
had houses in the same locality, both  
of which are said to have been fre-  
quented by McCool.

### WAR ON BILLBOARDS.

### Declared at Convention of the Amer- ican Civic Association.

Milwaukee, Oct. 26.—"Tax" the  
billboards out of existence" will be  
the battle cry of the American Civic  
association for the next year as a  
result of a plan decided upon at its  
annual convention, which opened in  
Milwaukee today. Sentiment in favor  
of aggressive steps against the bill-  
board characterized all addresses, and  
the organization will bring to bear  
the same powerful influence which  
made successful its campaign for the  
preservation of Niagara Falls.

## WOMEN'S NEGLECT

### SUFFERING THE SURE PENALTY

Health Thus Lost Is Restored by Lydia  
E. Pinkham's Vegetable Compound.

How many women do you know who  
are perfectly well and strong? We  
hear every day the same story over and  
over again. "I do not feel well; I am  
so tired all the time!"

Miss Kate McDonald

More than likely you speak the same  
words yourself, and no doubt you feel  
far from well. The cause may be easily  
traced to some derangement of the fe-  
male organs which manifests itself in  
depression of spirits, reluctance to go  
anywhere or do anything, backache,  
bearing-down pains, flatulency, nerv-  
ousness, sleeplessness, or other fe-  
male weakness.

These symptoms are but warnings  
that there is danger ahead, and unless  
heeded a life of suffering or a serious  
operation is the inevitable result.

The never-failing remedy for all these  
symptoms is Lydia E. Pinkham's Vege-  
table Compound.

Miss Kate McDonald of Woodbridge,  
N. J., writes:

Dear Mrs. Pinkham:  
"Restored health has meant so much to me  
that I cannot help from telling about it for  
the sake of other suffering women."  
"For a long time I suffered untold agony  
with a female trouble and irregularities,  
which made me a physical wreck, and no one  
thought I would recover, but Lydia E. Pink-  
ham's Vegetable Compound has entirely  
cured me, and made me well and strong, and  
I feel it my duty to tell other suffering women  
what a splendid medicine it is."

For twenty-five years Mrs. Pinkham,  
daughter-in-law of Lydia E. Pinkham,  
has under her direction, and since her  
decease, been advising sick women free  
of charge. Her advice is free and  
always helpful. Address, Lynn, Mass.

## WATER CONTRACT TO BE VOTED ON AT THE NOVEMBER ELECTION

### REPORT OF JOINT LIGHT AND WATER COMMITTEE ON NEW CON- TRACT BETWEEN THE CITY OF PADUCAH AND THE PADUCAH WATER COMPANY.

Owing to the fact that the contract  
existing between the city of Paducah  
and the local water company for fire  
hydrants expires during the current  
month it was incumbent upon the  
general council to negotiate for such  
service covering the remaining period  
while the franchise of the water  
company still has to run, to-wit:  
eighteen years.

After several conferences between  
the joint light and water committee  
and the officers of the water company  
a scale of rates for fire hydrants was  
agreed upon by the committee and  
the water company. These rates  
have been embodied in a contract  
which will be submitted to the gen-  
eral council for such action as the  
wisdom of that body may determine.  
If the proposed contract is favorably  
acted upon by the general council,  
it must be submitted to the votes of  
the city at the next election and  
affirmatively ratified by not less than  
two-thirds of the vote then cast upon  
the question before contract be-  
tween the city and the water com-  
pany can be finally executed.

It is therefore worth while for the  
voters of the city to carefully con-  
sider the terms of the proposed con-  
tract before casting their votes at the  
coming election, and if it appears  
that the proposed contract is to the  
advantage of the city, then to register  
their approval thereof upon their bal-  
lots.

In order that the voters may have  
an opportunity to become fully ad-  
vised regarding the terms of the pro-  
posed contract a copy of the same is  
herewith submitted which reads as  
follows:

"Section 1. That the City of Paducah,  
Ky., agrees to rent and does  
hereby rent from Paducah Water  
company, its successors and assigns,  
four hundred and eleven (411)  
double nozzle fire hydrants now es-  
tablished in said city for a period of  
eighteen (18) years from the passage  
and final approval of this ordinance,  
after an election by the people as  
hereinafter provided. The annual  
rental for each of said fire hydrants,  
which the city of Paducah hereby  
agrees to pay for the first ten (10)  
years of said term, shall be twenty  
(\$20.00) dollars and the annual  
rental for the remaining eight (8)  
years shall be fifteen (\$15.00) dol-  
lars, unless the said city shall sooner  
purchase water company's plant, with  
six (6) per cent interest upon deferred  
payments. The payments of said  
rentals shall be made as provided in  
the original ordinance contract.

"Section 2. All additional hydrants  
on extensions of mains that may be  
erected hereafter by the Paducah  
Water company, its successors or as-  
signs, as provided in the original or-  
dinance contract during the said  
eighteen years, shall be charged and  
paid for as provided in section one  
hereof; but at the expiration of ten  
(10) years from the time this ordi-  
nance shall have been finally ap-  
proved as set out above, all then  
fire hydrants shall be charged and  
paid for at the uniform rate as above  
provided and the contract therefor  
shall expire at the end of the eighteen  
years fixed in section one.

"Section 3. Before this ordinance  
shall become effective it shall be sub-  
mitted to a vote of the qualified  
voters of the city of Paducah, Ky.,  
at the general election to be held in  
said city on the 6th day of November,  
1906, the said vote to be taken in the  
manner and as provided by law for  
the submission of public questions to  
the voters of said city.

"Section 4. This ordinance shall  
take effect and be in force from its  
passage approval and ratification by  
the qualified voters of the city of Pa-  
ducah, Ky., and a written acceptance  
of its terms and conditions by the  
Paducah Water company filed with  
the clerk of the city of Paducah, Ky.,  
within ten (10) days after the official  
certificate of its approval at the popu-  
lar election."

At the present time the water com-  
pany has installed for the use of the  
city 411 fire plugs, which under the  
old contract are rated and cost each  
year as follows:

150 fire plugs at \$40.00...\$6,000.00  
30 fire plugs at \$30.00... 900.00  
231 fire plugs at \$25.00... 5,775.00

Total.....\$12,675.00

Under the proposed contract this  
same service would cost the city but  
\$8,220.00 for each of the first ten  
years of the contract a saving upon  
the number of hydrants now installed  
of \$4,455.00 per annum and for the  
ten year period a saving of \$44,-  
550.00.

For each of the last eight years  
which the franchise has to run, the  
cost for 411 hydrants would be \$6,-  
165, a saving to the city of \$6,510  
per annum or of \$52,080 for the  
entire eight years of the fran-  
chise, making a total saving to the  
city between the existing contract and

the proposed contract of \$96,630.

There is nothing contained in the  
proposed contract changing the rights  
of the city or those of the water com-  
pany under the original franchise.  
The city still retains the right to pur-  
chase the water company's plant at  
the expiration of each five year period  
in accordance with the terms of the  
original franchise.

This committee has also compared  
the rates contained in the proposed  
contract with those in effect in 127  
other cities for the same class of ser-  
vice and finds the proposed rates low-  
er than those paid by any of these  
cities. The approximate average cost  
per hydrant in the number of cities  
mentioned above is \$48.

The rates referred to were submitted  
by the local water company and  
this committee assume that the fig-  
ures are correct. The list of the  
cities with the rate paid in each is on  
file with this committee and anyone  
desiring to verify the figures con-  
tained therein may have the oppor-  
tunity of doing so at any time.

It should also be borne in mind  
that until a new contract is entered  
into between the city and the water  
company, that the rates charged un-  
der the existing contract will main-  
tain. The only alternatives offered  
to escape from the old rates are  
either to make a new contract or to  
discontinue the service, the latter, of  
course, being quite impossible.

Therefore, this committee has no  
hesitation in recommending to the  
general council and to the voters of  
the city of Paducah that the pro-  
posed contract be ratified.

## FRUIT STAND

FURNISHES PART OF AMMUNITION FOR BATTLE.

Broadway Scene of Vigorous Fight Which Ends in the Police Court Today.

"I thought I heard a Dago shout: 'I've got a load of bananas and can't sell out.'"

The above, the composition of some juvenile literary genius, caused a general stir on Broadway yesterday afternoon in which apples, bricks and other convenient missiles figured. Hugh Luttrell and Claude Fondeau walked past the Caporal fruit stand near Fourth street on the north side of Broadway. The Fondeau boy sang out the words.

Pete Caporal was busily engaged in wiping apples. He turned, met the grinning countenance of the two youths and his wrath knew no bounds. He threw the apple and Luttrell got it on the ankle. It burst and

Luttrell in turn was angered. Seizing a brick he made for Pete, but Pete repaired to the rear of the fruit stand. Luttrell "dared him out" and Pete, backed by encouragement from others in the store, came. He saw Luttrell meant business and turned to retreat but the enemy opened fire.

The brick struck Pete in small of the back and he hit the floor. Luttrell, his ammunition spent, retreated to the spice and tea shop next door and barricaded himself behind the proprietor. Pete armed himself with a few rocks and established a patrol, which he maintained until Patrolman Terrell arrived.

The fight drew clerks out of all downtown stores within ear range of the battle. The clerks of Eli Guthrie's store were called into court as witnesses and it caused nearly a suspension of business in the stores for a time.

Pete was fined \$10 and costs and Luttrell released with a reprimand. The Luttrell boy is under 17 years and can not be tried in the police court.

## Experience...

Of the last few years has taught us that the manufacture of clothing has resolved itself into three distinct classes or specialties.

## In the First Class

Are the makers of cheap grades. These lines we do not carry, nor will we make any attempt to do so.

## The Second Class

Comprises those houses who make a medium and a superior medium line of clothing which ranges in price from \$7.50 to \$15.00. In this class we have put ourselves and intend to stay "put."

## The Third Class

Represents the makers of exclusively fine grades and to a few such we pay our respects and give our admiration. We are specializing more and more closely every season on a standard which is slightly above the average in excellence as to Fit, Style and Quality.

We are confident that we can successfully compete with any and all lines in our class and, with this salient statement, we respectfully invite your attention to Hart, Schaffner & Marx and The Atterbury System, prices \$18 to \$45.

Our whole policy, condensed into a phrase, is "To Preserve Confidence."

## COLORADO RIVER TURNED BACK

Southern Pacific Engineers Save \$25,000,000 Worth of Property.

Imperial, Cal., Oct. 26.—After months of work and the expenditure of an enormous sum the Southern Pacific has won its fight against the Colorado river. Yesterday it turned back to its channel leading to the Gulf of California the first water of the river that has flowed there for two years. By this great achievement \$25,000,000 worth of property and the homes of 10,000 people are rescued from threatened inundation. Salton Sea, which has been created during the two years that the river has been pouring into the desert bo-

son, will now dry up. The engineers have built a concrete dam of gate, supplemented by a rock and gravel dam, across the break. The present expense is \$10,000 a day.

## MORE SOLDIERS

Sent Against the Utes, Who Declare They Will Die.

Omaha, Neb., Oct. 26.—Another detachment of 400 United States cavalrymen have been ordered to intercept the runaway Ute Indians in Wyoming, and the soldiers leave Ft. Meade, S. D., tonight. So urgent is the order that many of the men will be carried in box and cattle cars, because the Northwestern railroad

could not get enough passenger coaches to Ft. Meade in time to send the troops today. With the two detachments of the Tenth cavalry which have been sent from Ft. Robinson, Neb., there are nearly 1,000 soldiers now out after the Utes.
